Email of person filling out this Initial Proposal *	mary.sheldon@washburn.edu
Title *	Build 2 Computer Labs
Problem / Opportunity Statement *	1. One computer lab could be used to schedule in-class exams. I 2. Faculty could create courses which would be taught in computer labs (paperless classes) which would focus on in-class activities and workshop time. Faculty could teach, lead computer reinforcement activities, and circulate to help with assignments.
Select one quality initiative sub-theme. *	Technology Competence
Sub-theme description. *	Students would upgrade their word processing skills on the latest software.
Benefits *	Increased revenue from students excited about a new type of classroom and, perhaps, willing to take more general education classes at WU rather than surrounding community colleges. The University could feature these classes in their advertising. ALSO, students, using their learning tool of choice, the computer, would be more focused on quality work.
Scope *	The English Department and others who use on-line education now and are excited about the potential use of computer education could get on board.
1st Stake Holder's Organization / Department	Tech Support
2nd Stake Holder's Organization / Department	English Department (perhaps)
3rd Stake Holder's Organization / Department	Math Department (perhaps)
4th Stake Holder's Organization / Department	Others offering General Education courses
Primary Contact's Department / Unit	Tech Support
2nd Team Member's Name	Mary Sheldon
2nd Team Member's Department / Unit	English Department
