▼ **Measure:** Graduate Survey Question 29-7  
*Indirect - Survey*

Details/Description: I would rate myself as \_\_\_ in my documentation of relevant aspects of patient treatment.

Acceptable Target: 100% of responses are 3 or better

Findings for Graduate Survey Question 29-7

Summary of Findings: 90% of responses are 3/5 or better. One graduate responded with 2/5.

Results : Acceptable Target Achievement: Not Met

Recommendations: Program will come up with a standardized documentation form to be used in some clinical competencies and assess whether a new documentation textbook for the program would be warranted.

Reflections/Notes: No comments were given from the graduate regarding their 2/5 response to this survey question. There are numerous documentation systems used within healthcare and it is possible students have a difficult time understanding that specific electronic medical record system. As a program, it is not efficient to teach towards a specific system since they vary across the board so much, but we do teach the foundations of documentation content that can be generalized to all systems. We do not know the context of this response.

Substantiating Evidence:

▼ **Measure:** Graduate Survey Question 29-8  
*Indirect - Survey*

Details/Description: I would rate myself as \_\_\_in my participation in discharge planning and follow-up care.

Acceptable Target: 100% of responses are 3 or better

Findings for Graduate Survey Question 29-8

Summary of Findings: 90% of responses are 3/5 or better with one graduate rating themselves as 2/5.

Results : Acceptable Target Achievement: Not Met

Recommendations: Continue to introduce discharge planning and follow-up care content during didactic courses and focus on reinforcing/implementing it during clinical rotations.

Reflections/Notes: No comments regarding the 2/5 response were given on the survey. Discharge planning is an area that some worksites might not utilize the PTA for this task which may make the graduate less confident in this area. Typically we score high on this PSLO and this one response might not indicate programmatic issues. We do not know the context of this response.

**Outcome: Graduate pass rates for PTA certification examination**

Graduate pass rates for the PTA Certification Examination will be at or above the national pass rate average.

▼ **Measure:** FSBPT Assessment data on graduate pass rates

*Direct - Exam*

Details/Description:

Acceptable Target: 100% of graduates have obtained passing score

Findings for FSBPT Assessment data on graduate pass rates

Summary of Findings: The ultimate pass rate for 2021 grads is 94.7%.

Results : Acceptable Target Achievement: Not Met

Recommendations: The cardiopulmonary course will have significant curricular changes in the 22-23 academic year as this area has had average scores when reviewing performance on the specific content areas of our graduate board exams.

Reflections/Notes: The COVID experience really hit this graduating class hard. This was also true nationally with national pass rates for the national 2021 class year dropping 5.2% compared to the 2020 class and 7% compared to the 2019 national class.

Due to the initial COVID response, Class of 2021 graduates had decreased clinical education hours. Overall we were very proud how the PTA program navigated the

pandemic within a healthcare program.
