Hi, my name is David Kibet from Eldoret town in Kenya. I am majoring in Criminal Justice currently in my second year at Washburn University. I like sports especially track and field. I joined PAIS because I like helping and I'm familiar with the challenges that international students go through before fully adapting to the new environment. Also I got to learn different cultures and diversity that comes with it. I'm looking forward to welcome the new student in Washburn University and make them feel at home.
